Mayur Rohokale

Full Stack Developer

📞 +91 9284659472   @ mayurrohokale1041@gmail.com   🔗 linkedin   📍 Pune, India

SUMMARY

A Full Stack Developer with Strong Knowledge in Web Development.
Skilled in both front-end and back-end technologies, with focus on creating efficient and user-friendly applications

EXPERIENCE

Full Stack Intern

Freekick.app

📅 10/2024 - 12/2024

- **Developed a quiz-based sports fantasy app** on Telegram using Next.js, integrating Web3 authentication with multi-chain wallet support (MetaMask, TonKeeper).
- **Implemented a betting quiz interface** with dynamic question types like single-select, multi-select, ordered multi-select, and number-range.
- **Integrated API-based functionality** for fetching match data and submitting quiz responses, with proper error handling and optimized performance.
- **Streamlined API-based workflows** for fetching match data and dynamically rendering quiz questions with proper error handling and performance optimization.
- **Optimized backend operations** using Django and FastAPI, focusing on secure communication and efficient data handling.
- **Designed user-friendly UI components** in Figma and implemented them using Tailwind CSS, ensuring responsiveness and aesthetic appeal.
- **Telegram's bot capabilities** to create a lightweight, accessible platform for sports fantasy enthusiasts.

PROJECTS

Kindness Corner

🔗 https://kindness-corner.vercel.app/

Kindness corner is a voting based donation system

- Designed and developed a donation platform connecting **Users and NGOs** as an intermediary.
- Integrated **Razorpay APIs** for streamlined and secure payment processing.
- Implemented **JWT authentication** to ensure secure user login and Registration.
- Register users can write blogs on the website.
- Created using **React.js, Node.js** and **MongoDB.**
- Designed web pages in **Figma** and implemented responsive layouts using **TailwindCSS.**
- Developed a robust **admin panel** for managing blogs, volunteer data, user statuses, and donations.

E-Store: E-Commerce Site

E-store is online clothing and accessories store

- Developed a fully functional **e-commerce application** using Angular, implementing core features like product listings, filtering, and cart management.
- Implemented a **cart management system** with add, update, and delete functionality, providing a seamless shopping experience.
- Integrated **RESTful APIs** for fetching real-time product data and managing user interactions.
- Integrated **product rating and review features** to enhance user interaction and decision-making.

CVFS: Customised Virtual File System

CVFS provides all functionality to the user which is same as Linux File system.

- It provides necessary commands, system calls implementations of file system through customised shell.
- Implemented essential file system data structures such as **Incore Inode Table**, **File Table**, **UAREA**, and **User File Descriptor Table**.

EDUCATION

Master of Computer Application

Savitribai Phule Pune University

📅 2023 - 2025   📍 Pune, India

GPA
8.03 / 10

Bachelor of Engineering

Savitribai Phule Pune University

📅 2019 - 2023   📍 Pune, India

GPA
8.01 / 10

SKILLS

Angular/ React.js		Javascript/ Typescript
Node.js	REST APIs	MySQL/ MongoDB
Vercel	Git	TailwindCSS	C++/ Java

CERTIFICATION

Mastering Angular+E-Commerce App, Udemy

Gained hands-on experience with Angular components, services, routing, and state management.

EXTRA CURRICULAR

Personality Development Activities

Attending workshops and training sessions by various experts from the professional world.

Tech Workshops and Webinars

Attended workshops on React, Web3, and AI integration, gaining insights into the latest technologies and industry trends.
